

GREEN RECOVERY FOR ALL

LOCAL GOVERNMENT COMMITMENT

We all have a stake in a successful and green economic recovery. By connecting the people who most need work to the work that most needs to be done, we can fight pollution and poverty at the same time.

As a Local Government leader, **I commit to creating a plan to implement a green recovery for all.** To that end, I will work to ensure that our implementation of the American Reinvestment and Recovery Act of 2009:

1. Creates **quality green-collar jobs** with family-supporting wages and benefits;
2. Ensures **transparency and accountability** through a community-based, participatory planning process with seats at the table for members of community organizations; and
3. Supports **pathways out of poverty** into self-sufficiency by maximizing career training, job training and supportive services for low-income people, people of color and women.
