GOALS: Growing Opportunities As Leaders Scholarship

This scholarship was launched to reduce and eliminate generational recidivism. It is open to high school age children of ex-offenders, juvenile offenders and those with incarcerated parents. By encouraging education to combat imprisonment; we look to further the success of graduating at-risk teens to attend and complete higher education. This program will advocate anti-crime, anti-gang and anti-drug prevention and intervention among our youth participants. We have incorporated employment, job training, financial counseling and mentorship to develop future leaders from those more likely to repeat the cycle of recidivism. If you are interested in our vision, please assists us in making it reality. We support our youth by providing the greatest tools needed to become successful, crime free leaders.
